SKILLS

MOBILE

React Native (Expo, CLI), Native Android/iOS

FRONTEND/BACKEND

React.js, Remix, Next.js, HTML5, CSS3, Solito, React Query, Axios, Node.js, Express, Auth0, Passportjs, REST APIs, GraphQL, AWS, Google Firebase, Heroku, Netlify, MySQL, PostgreSQL, MongoDB, Tailwind, Chakra, MUI, React Native Elements, React Native Paper, Native, Base, Tamagui, Storybook

TESTING

Jest, Appium, WebDriverIO, Detox, Cypress, Mocha, Chai

CI/CD

Github Actions, Fastlane, CircleCI, Bitrise

UI/UX

Figma, Adobe XD

Agile Tools

Jira, Monday, Asana, Trello, GitHub, Bitbucket, Gitlab

PROFILE

I'm Arslan Mushtaq, a tech professional with 8+ years of experience, spanning MedTech, FinTech, and EduTech. Skilled in React Native, Next.js, Node.js, and Agile methodologies, I've led projects from concept to delivery, integrating CI/CD practices for efficient development. My expertise includes building scalable applications, managing databases, and fostering collaborative, agile environments for successful project execution.

EXPERIENCE

○ Lead Frontend Developer

NOVOS, Remote Apr 2023 - June 2024

- Organized team activities efficiently using Monday.
- Led the development and maintenance of mobile app infrastructure, utilizing Notion, Figma, and Terraform.
- Crafted mobile applications proficiently with React Native, incorporating Redux, Redux RTK Query, and TypeScript.
- Enhanced productivity by integrating Jenkins, App Center, and GitHub Actions for CI/CD.
- Ensured application robustness through comprehensive end-to-end testing frameworks like jest and detox.
- Enforced rigorous coding standards with ESLint and Prettier.
- Established design guidelines in Figma for UI/UX consistency.
- Applied Agile methodologies effectively for mobile app success.

○ Senior React Native Developer

S4 Digital, Remote Oct 2021 - Mar 2023

- Enhanced an existing mobile app through pair programming with fellow developers.
- Developed key features using React Native for the mobile application.
- Maintained code quality with Jest unit tests and Appium/Webdriver for end-to-end testing.
- Proactively addressed issues across environments using Bitrise, Dynatrace, and Instabug monitoring tools.
- Implemented efficient localization with Magnolia CMS.
- Facilitated debugging and troubleshooting with Sentry and React Native Debugger.

LANGUAGES

Urdu, English

HOBBIES

Travelling, Foodie, Content Creation

○ Associate React Native Developer

Ecologix, Pakistan

Sep 2020 - Sep 2021

- Constructed client-tailored mobile applications using React Native.
- Developed full-stack applications integrated with React Native using Google Firebase.
- Optimized development processes with cutting-edge JavaScript ES6 techniques.
- Oversaw a team of two junior members, fostering collaboration and productivity.
- Managed client requirements effectively, ensuring seamless communication and satisfaction.

○ React Native Developer

Juice Phactree - Remote

Sep 2015 - Aug 2020

- Transitioned from Native Android Developer to React Native framework.
- Integrated popular React Native libraries and third-party APIs.
- Managed end-to-end mobile app lifecycle, from development to deployment.
- Solely responsible for the mobile application's architecture and codebase.
- Provided technical support and troubleshooting for mobile applications.

EDUCATION

○ Bachelors of Computer Science

Minhaj University, Lahore

April 2015 - April 2020

○ Higher Secondary School (General Science)

Sheikh Khalifa Bin Zayed Arab
Pakistani College, Abu Dhabi

2010 - 2013
